tag it.ae

One photo. The right person. *Closed only with proof.*

One app for keeping a master community in good order: residents report problems, contractors fix them with proof, and your team sees everything in one place.

PROOF ON EVERY JOB

Proved on site.

Before and after photos · GPS on site · Time-stamped

Any phone · English or Arabic

01
Report in seconds

One photo; the phone suggests the place.

02
To the right team

Sent by trade and place, followed until closed.

03
No proof, no close

An after photo on site, confirmed by GPS.

04
Rated, and reopened if it comes back

One tap reopens it, with its history.

Measured by facts

Each contractor is scored against its own contract. Late jobs escalate on your own targets.

Routine work, proven

Rounds from your Excel schedule, done on site with GPS, readings and a photo. One in ten spot-checked.

Start with a 30-day pilot on one cluster: *real reports, real contractors, judged on your own numbers.*
